WORK EXPERIENCE

October, 2022 – May, 2024 | Baku, Azerbaijan

Frontend Developer | RIDS Azerbaijan

Role Description: Designed and implemented websites interface for mobile, laptop and tablets. Specialized in front-end framework construction using React, JavaScript, and Tailwind.css. Proficient in JavaScript frameworks such as React. Coordinated usability testing and corrective action of bugs. Managed project and web strategic planning for entire team. Contributed to back-end experience and collaborated on APIs. Handled special projects designated by senior developer. Participated in pre-project analysis and technical assessments to validate creation of user-friendly interface. Troubleshoot website on different browsers to determine quality. Scheduled meetings with clients to discuss website design preference and requirements. Created backup files on servers and directories to avoid data loss.

Reason for Leaving: Moving to US for education in California State University.
